

I am writing to you regarding Klove radio. And would like to say that Klove is a great help to my family and a wonderful source of Family entertainment, which is rare these days! I contribute to Klove when i can and encourage others in my community to listen and contribute also. I believe that Klove radio is a very important asset to the community because they have familyfriendly programming, community announcements, and sponser family events! I for one know that my family would be at a great loss if we were to lose Klove in our area. Also in my opinon I wish there were more radio stations like Klove. So many stations have raunchy progams on all day and I am often horrified by what i hear on them. Klove is a place where parents know they dont have to worry about hearing sexual and drug refferences 24/7!!! Please Keep KLOVE!!!!
